

## **JAMES EDWARD PERRY**

I was born in Burnt Oak, London 1947 and raised in Norfolk from 5 years of age at Higham, East Dereham and Costessey, Norwich.

I lived in Cambridge from 1968 to 1985 and worked as an engineer for British Gas.

My hobbies and personal interests are collectibles namely, coins, stamps, cigarette and trade cards, World Wars 1 & 2 memorabilia and metal detecting and amateur archaeology.

I moved to Burwell in 1985 and started my own business (Anglia Gas & Electrical Services) in 1996 and currently it is still in operation.

I volunteered to serve as a Parish Councillor in the Parish of Burwell in 1993 and have served the village in that capacity continuously since then.

My Burwell village interests and concerns are in improvements to the village especially with Road Safety, Speedwatch, Neighbourhood Watch, cycle paths to neighbouring villages and improvements to the Recreation Ground.

I am a trustee for the nature reserve in the village, namely 'Pauline's Swamp' which lies off Reach Road.

I am happy to talk to anybody in the village about their concerns and problems.
